

## Bow\_Secure Wifi: Connecting a Mac

- 1: Login into your school or personal Mac with your account.
- 2: Next click on the wireless icon in top right corner of your desktop and select the Bow\_Secure Wifi network.

- 3: A window will open asking for you username and password. Here you will need to enter your **Windows network login** credentials here.

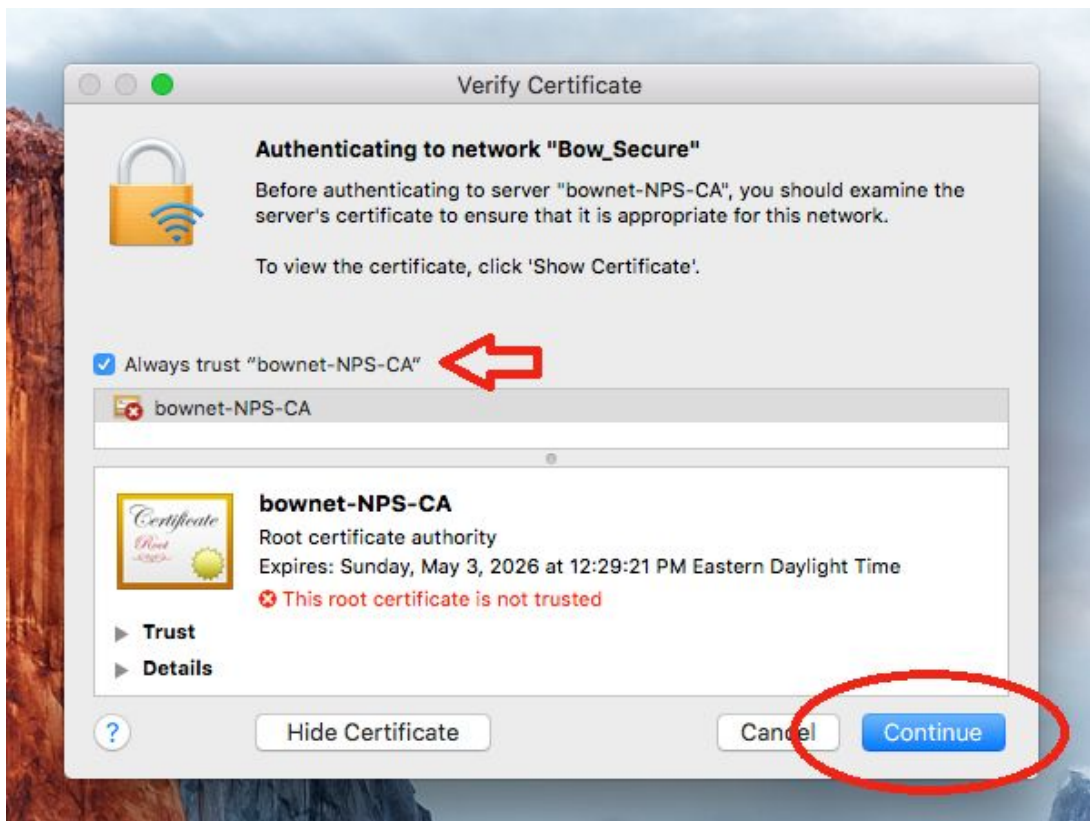

(If you don't know your Windows network login password let us know and we can reset this for you.)

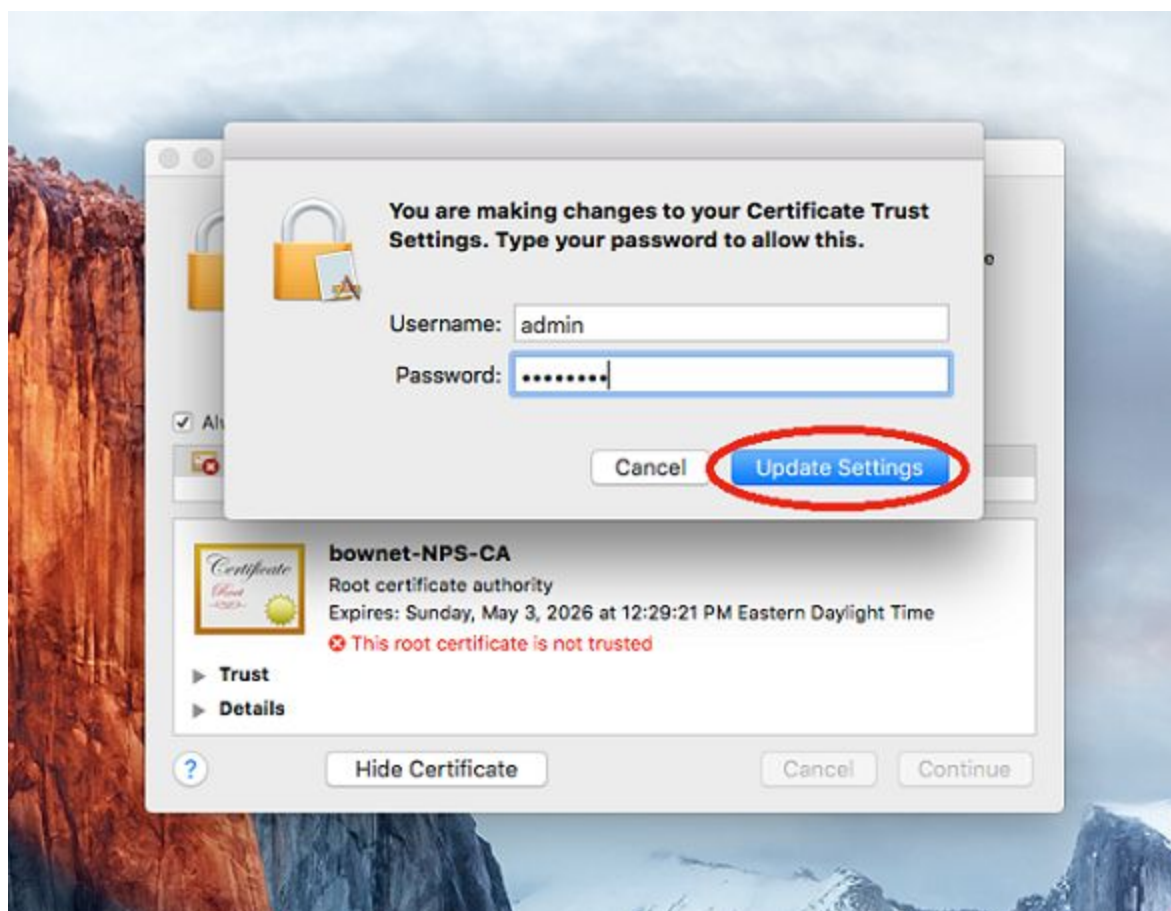

4: Next the verify certificate window will open, select the show certificate button.

5: Next verify the always trust "bownet-NPS-CA" box is checked then and then select continue.

5: You will then be asked to enter your mac login username and password to update the certificate settings. Enter your username and password and select update settings button.

6: Once completed your computer will now connect to Bow\_Secure.
